

# Wired powerHubs

## Mobile power and data stations

The **zioxi** Wired powerHubs are mobile power towers which provide mains & USB power and data at table height utilising a floor or wall socket as the power source. They fit perfectly in the centre of a group of tables such as the **zioxi** t41 range. Great for keeping a space flexible and adaptable.

### Key features:

- Full and coffee table height options
- Choice of different configurations of mains and USB power sockets
- Optional Ethernet (with internal switch) and other types of data socket
- Option for internal sockets with AC adapter & cable storage
- Lightweight and easily wheeled into place
- 5 star base with lockable wheels
- Clean modern look with colour options

HUB-BYOD-W-6M	Wired BYOD powerHub with 6 mains sockets	35 dia x 100H
